

EXPLOSIVE TECHNOLOGY™

Ballistic Silvertip™ LEAD FREE

WINCHESTER® SUPREME®
BALLISTIC SILVERTIP® LEAD FREE.

Winchester® Ammunition is taking varmint hunting to a new level using fragmenting copper core technology to incorporate a lead free bullet in both .223 Rem and 22-250 Rem in the Ballistic Silvertip line.

This new lead free load, brought to you by Nosler and Winchester, features a plastic tip to reduce tip damage and has a gilding metal jacket. The fragmenting copper core is engineered to explode on impact.

Symbol	Caliber	Bullet Wt.	Bullet Type	Velocity (fps)
S223RLF	223 Rem	35 gr	Ballistic Silvertip LF	3800
S22250RLF	22-250 Rem	35 gr	Ballistic Silvertip LF	4200
